

I strongly object to the proposal to further deregulate the media. A democracy is built on a free press and we don't have that if the media are owned by a few rich individuals. We need diversity, we need variety in views. This is essential to the functioning of our political system. It would be a tragic mistake to let the media become further concentrated. Please do not take this step. We call upon you to maintain America's traditions and keep our media diverse.
